

LA19-15-03 Fast Synthesizer

300 kHz to 8 GHz

Data Sheet

- 45 μ s Settling
- 10 Hz Resolution
- 30 dB Amplitude control
- +15 dBm Output
- PLL Lock alarm
- ALC Lock alarm
- -90 dBc/Hz Phase noise at 4 GHz

The LA19-15-03 is a fast, general purpose multi-decade tuning synthesizer module. It provides very fast tuning, typically settling to within 10 ppm in less than 45 μ s for a full band step. It includes a programmable automatic level control capable of operation over a 30 dB range with a settling time in the region of 10 μ s. The maximum, levelled output power is +15 dBm across the entire 300 kHz to 8 GHz band.

The synthesizer module provides a 10 MHz reference output as well as being capable of locking to an external reference. The module consumes a total of 8 W so heat management requirements are modest.
